

HEALTHCARE

schiaavetto

Day Bed

An innovative design in Healthcare, the Day Bed encapsulates the user in comfort and creates a sense of well-being. Finished in anti-bacterial foam, the sleeper doubles as a comfortable lounge chair and a fully functional bed for when visitors spend the night. Two built in draws provide convenience for personal belongings and are easily removed for cleaning maintenance, reducing the potential for bacteria build up.

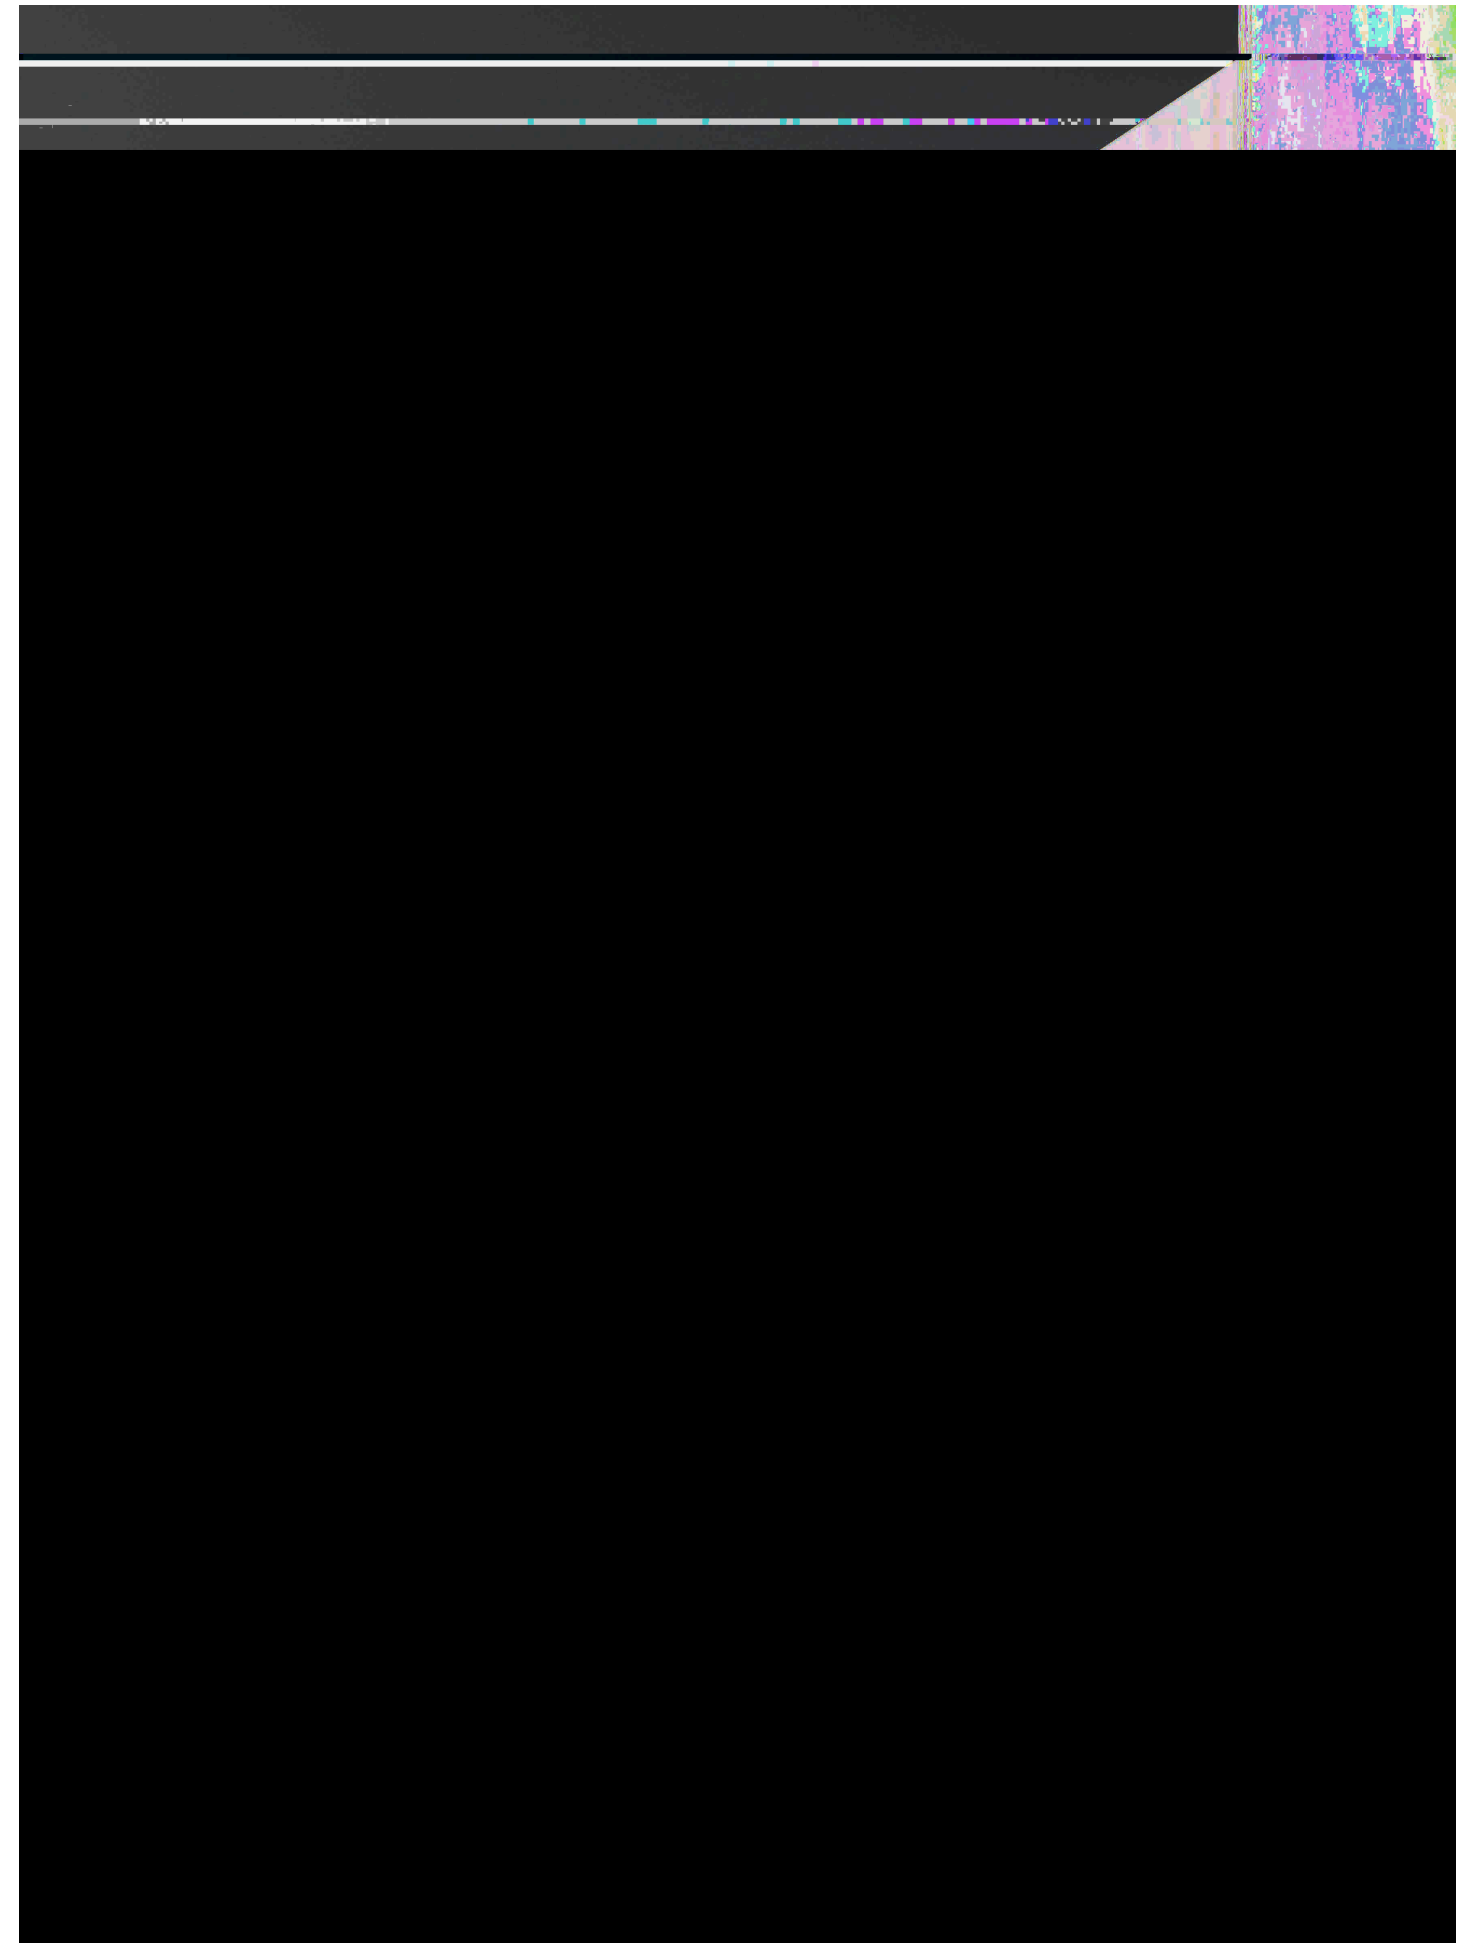

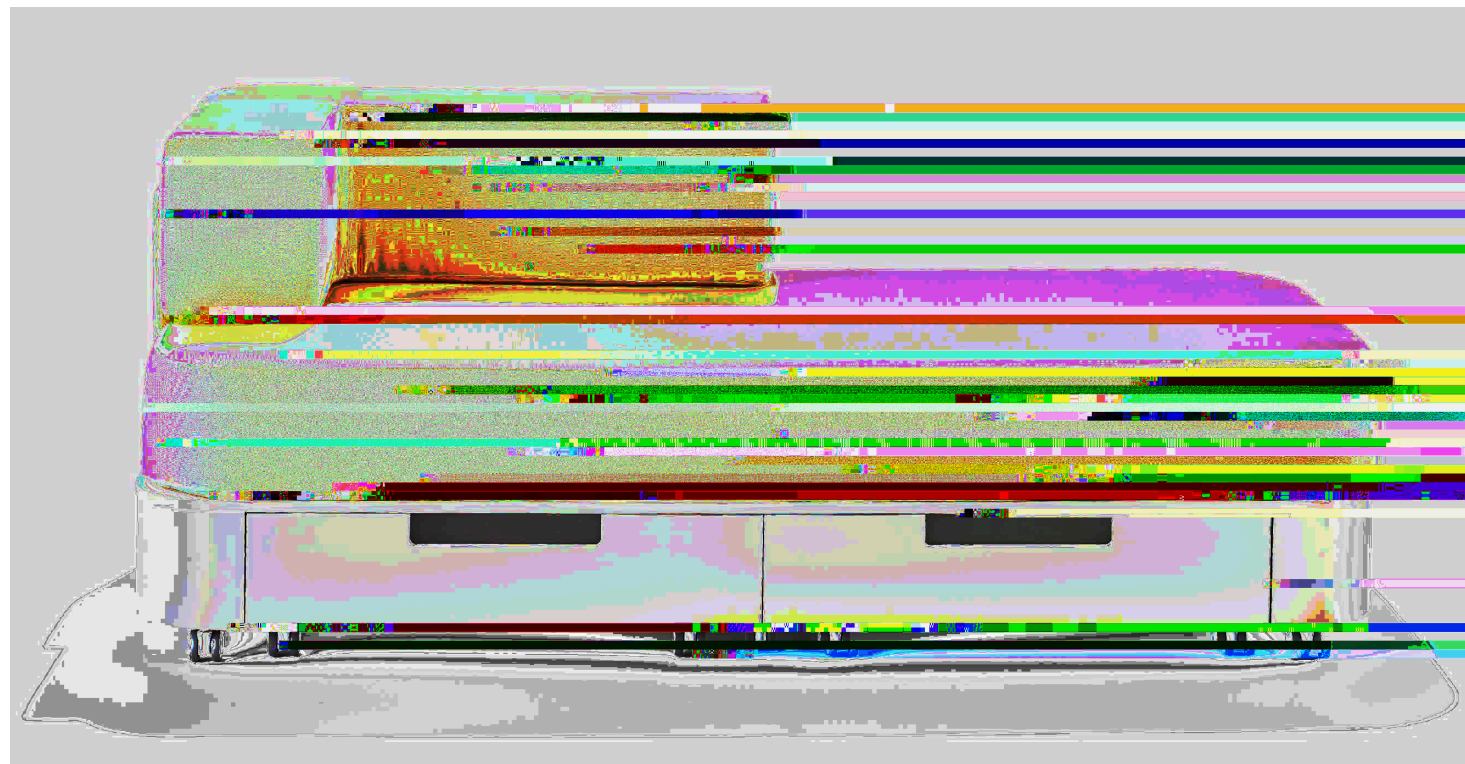

F a :

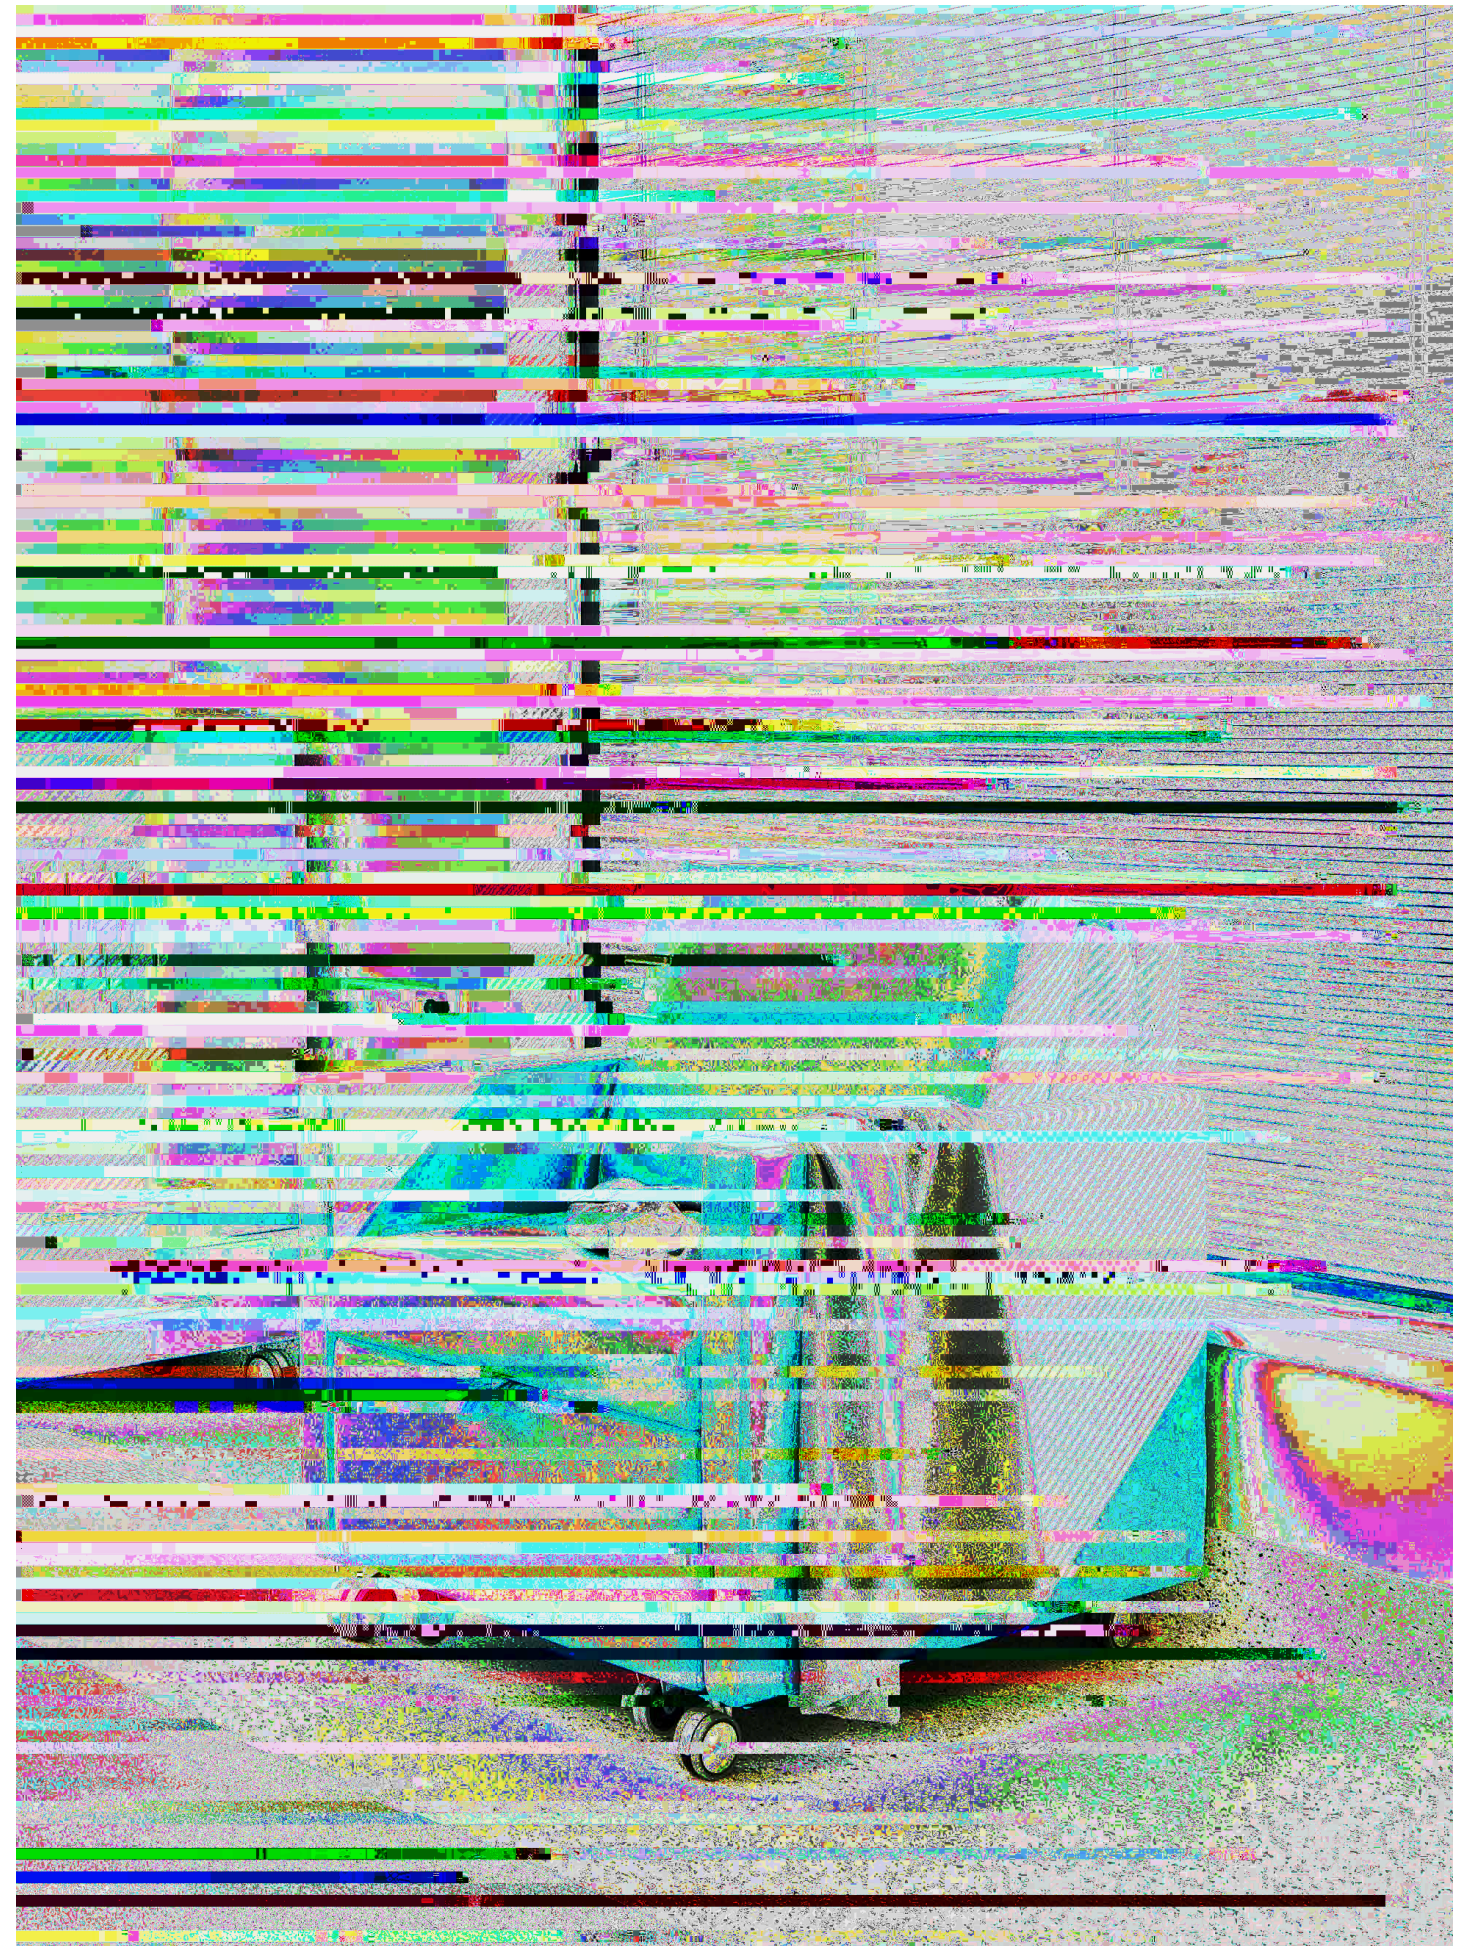

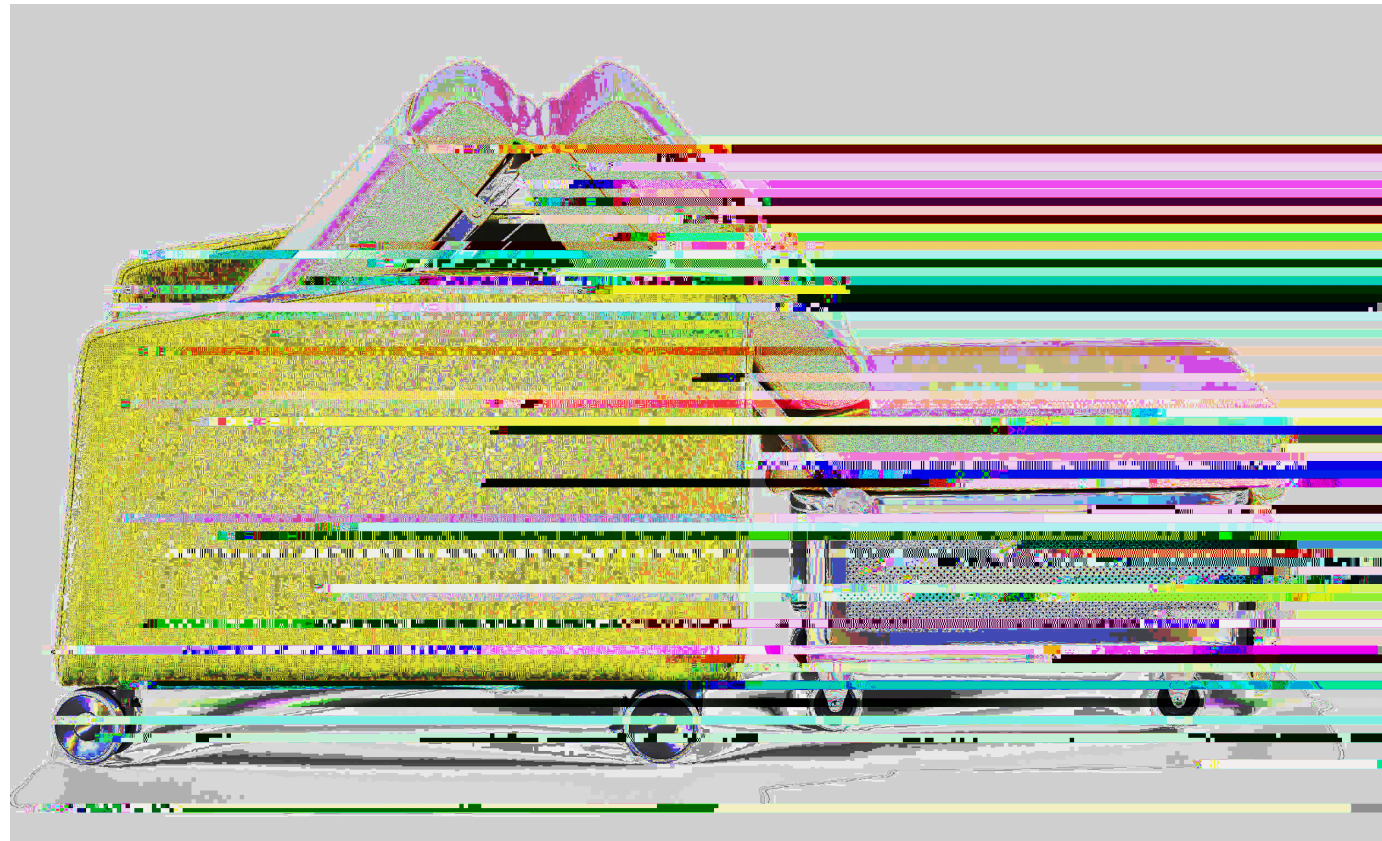

Anti-bacterial, high resilient and fire retardant foam

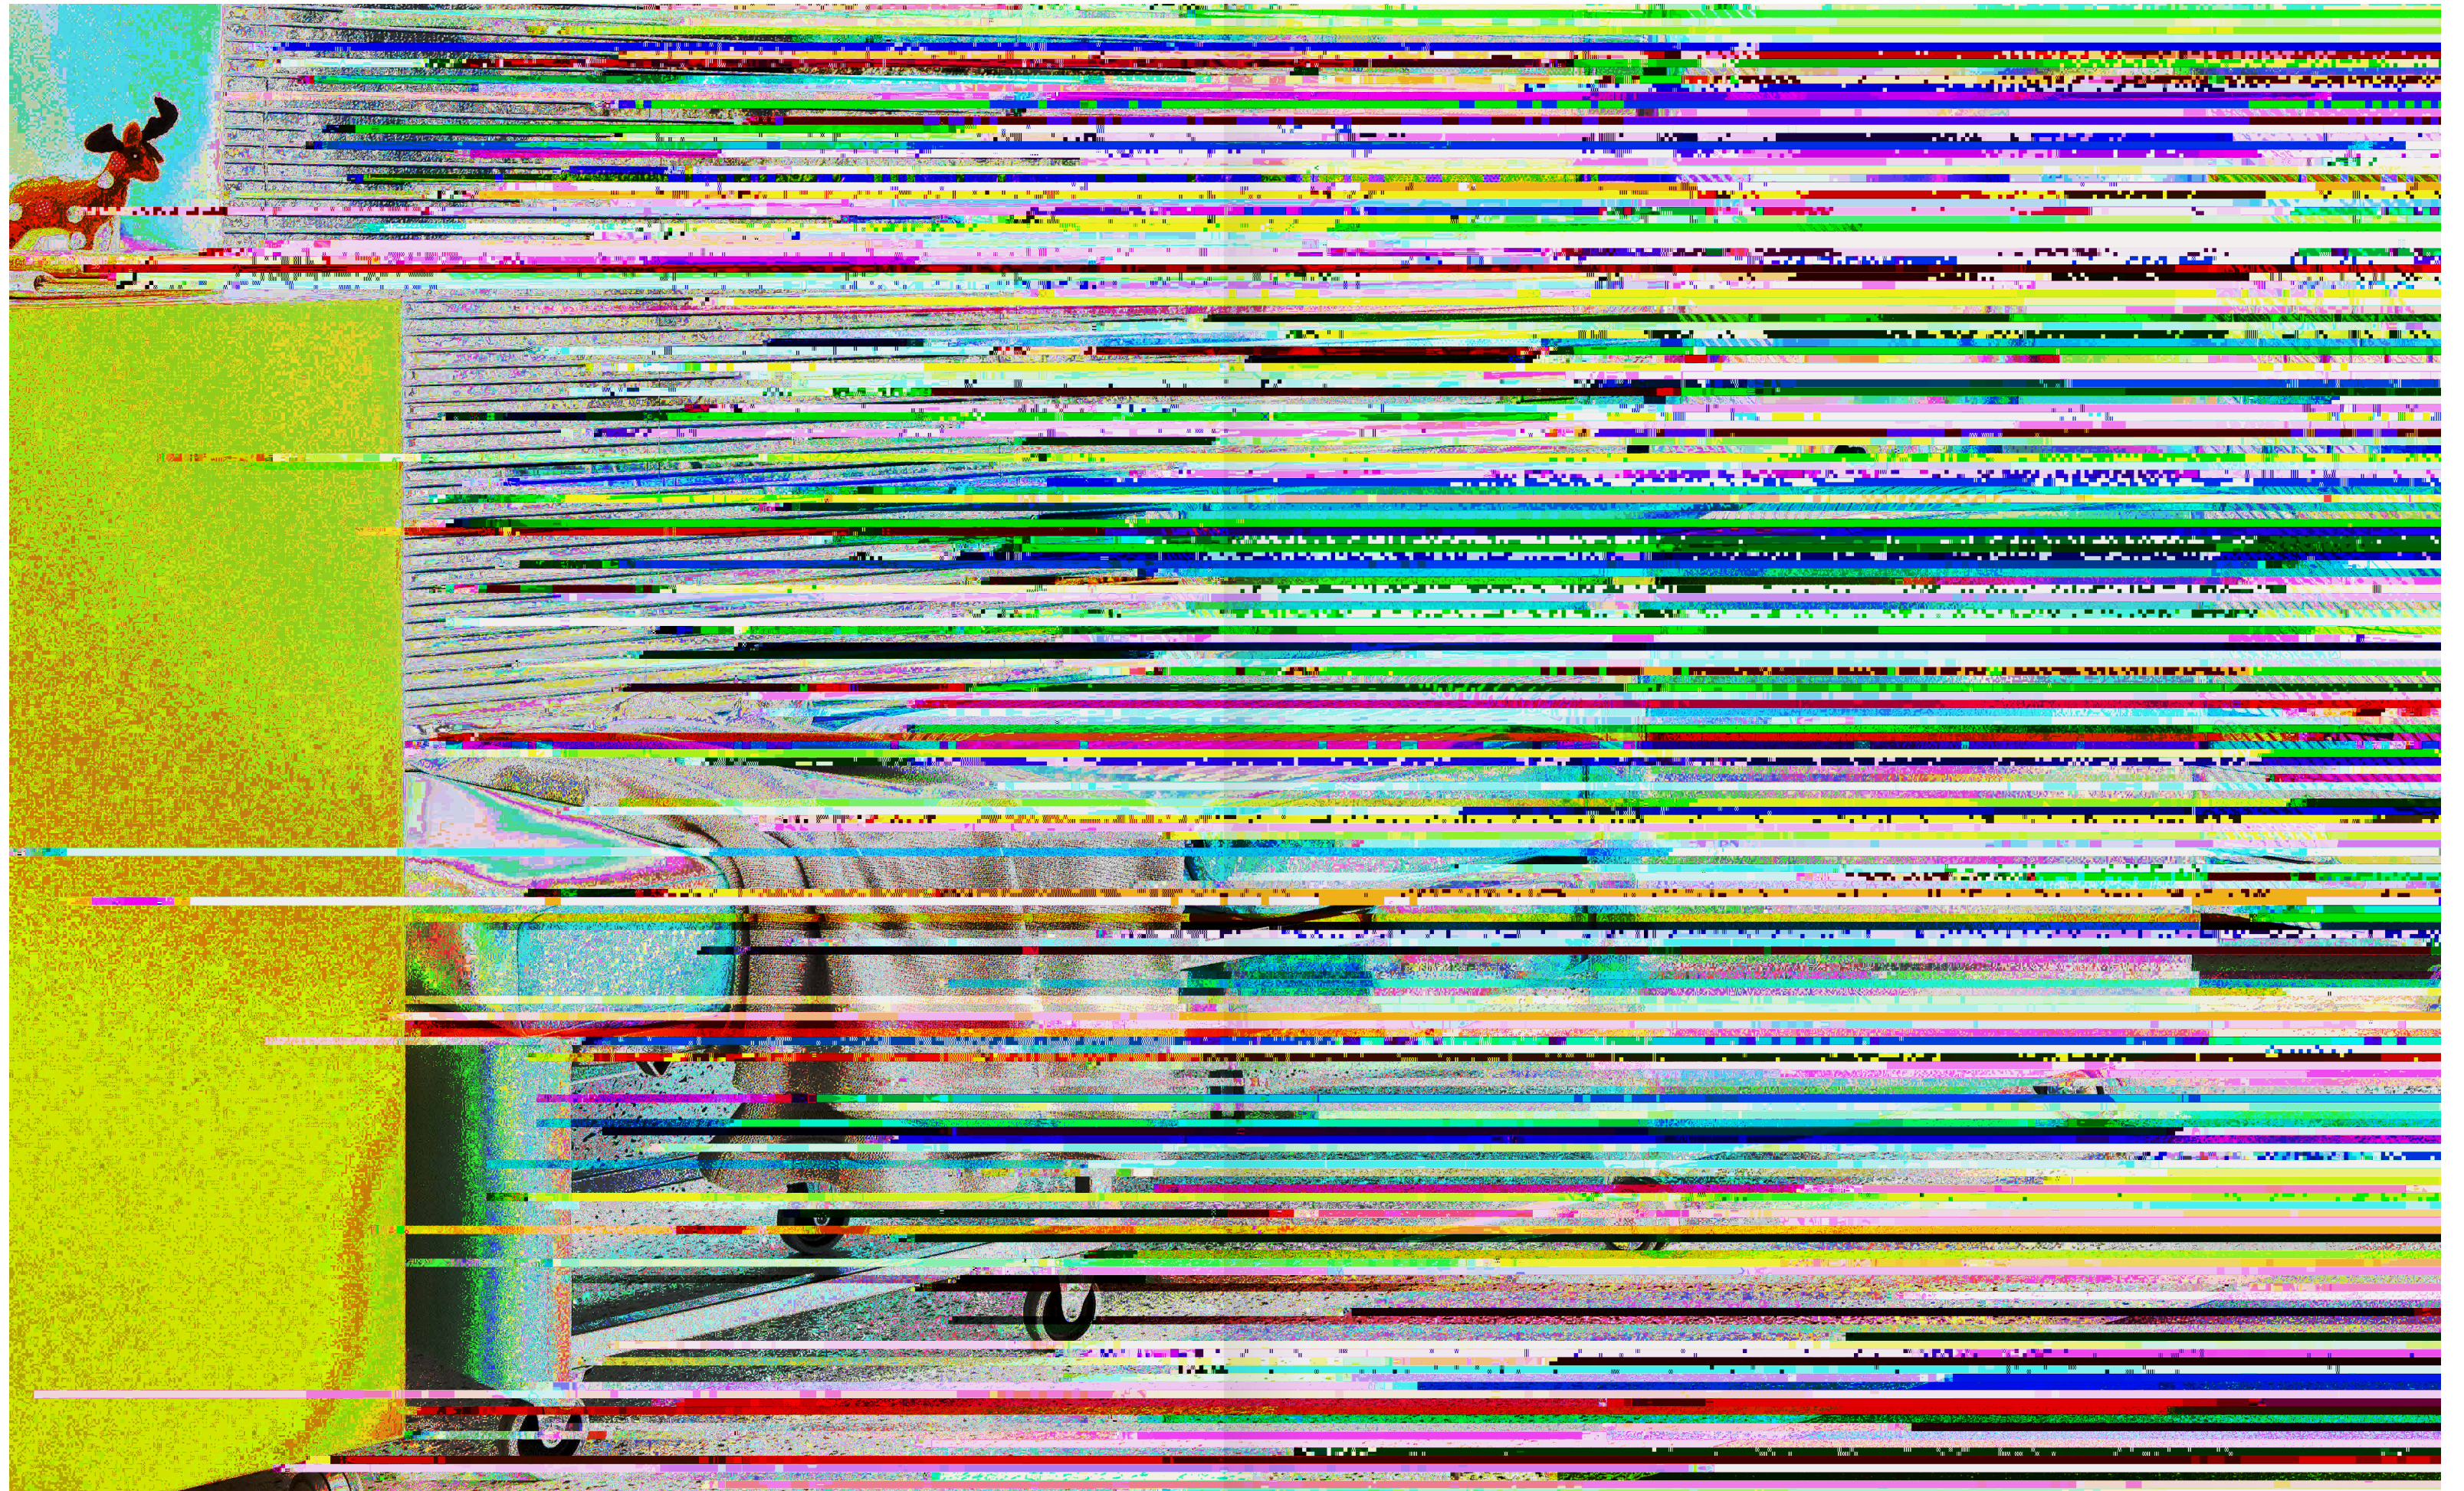

4 x lockable and 2x free wheel castors

Infection controlled, fully laminated powder coated base frame structure

Single piece of bent-ply for a supportive back cushion

Auto Recliner

The Auto Recliner offers patients and visitors the solace of home with a cohesive and inviting aesthetic. Inductive touch buttons empower the user with absolute maneuverability and 100mm / 3.9" castors enable smooth access to elevators.

Features:

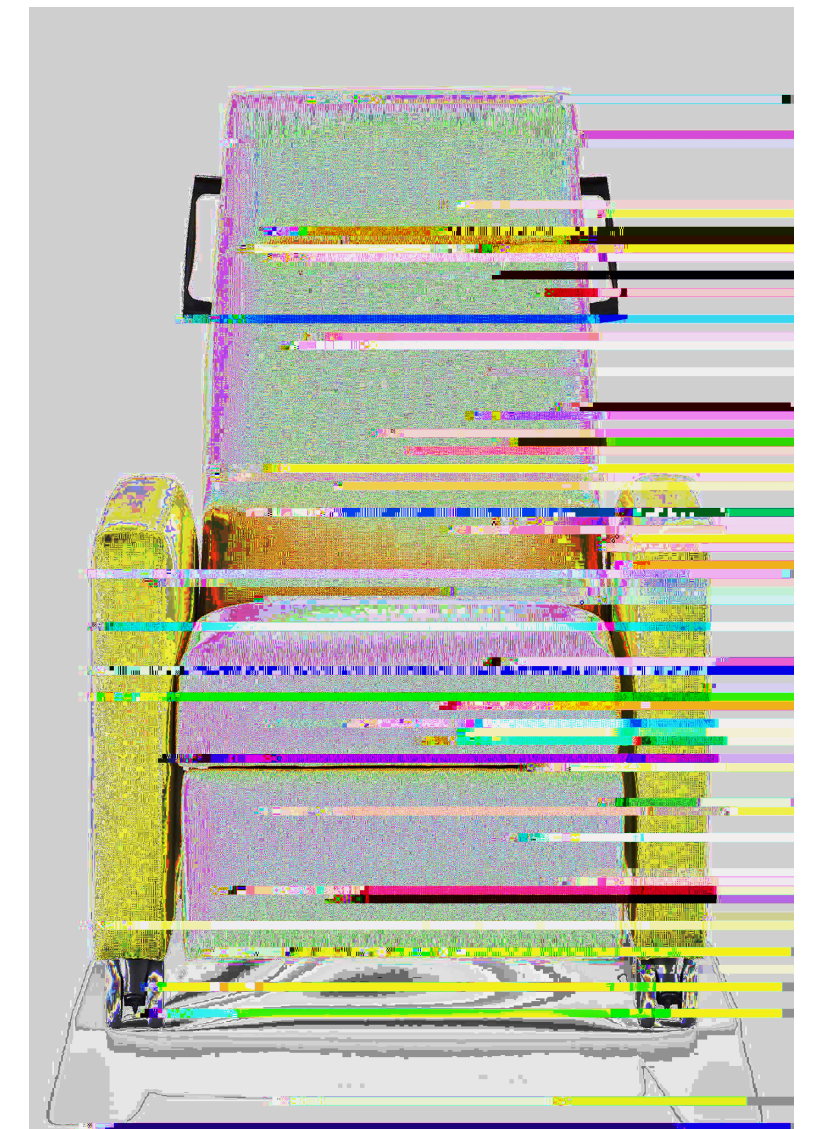

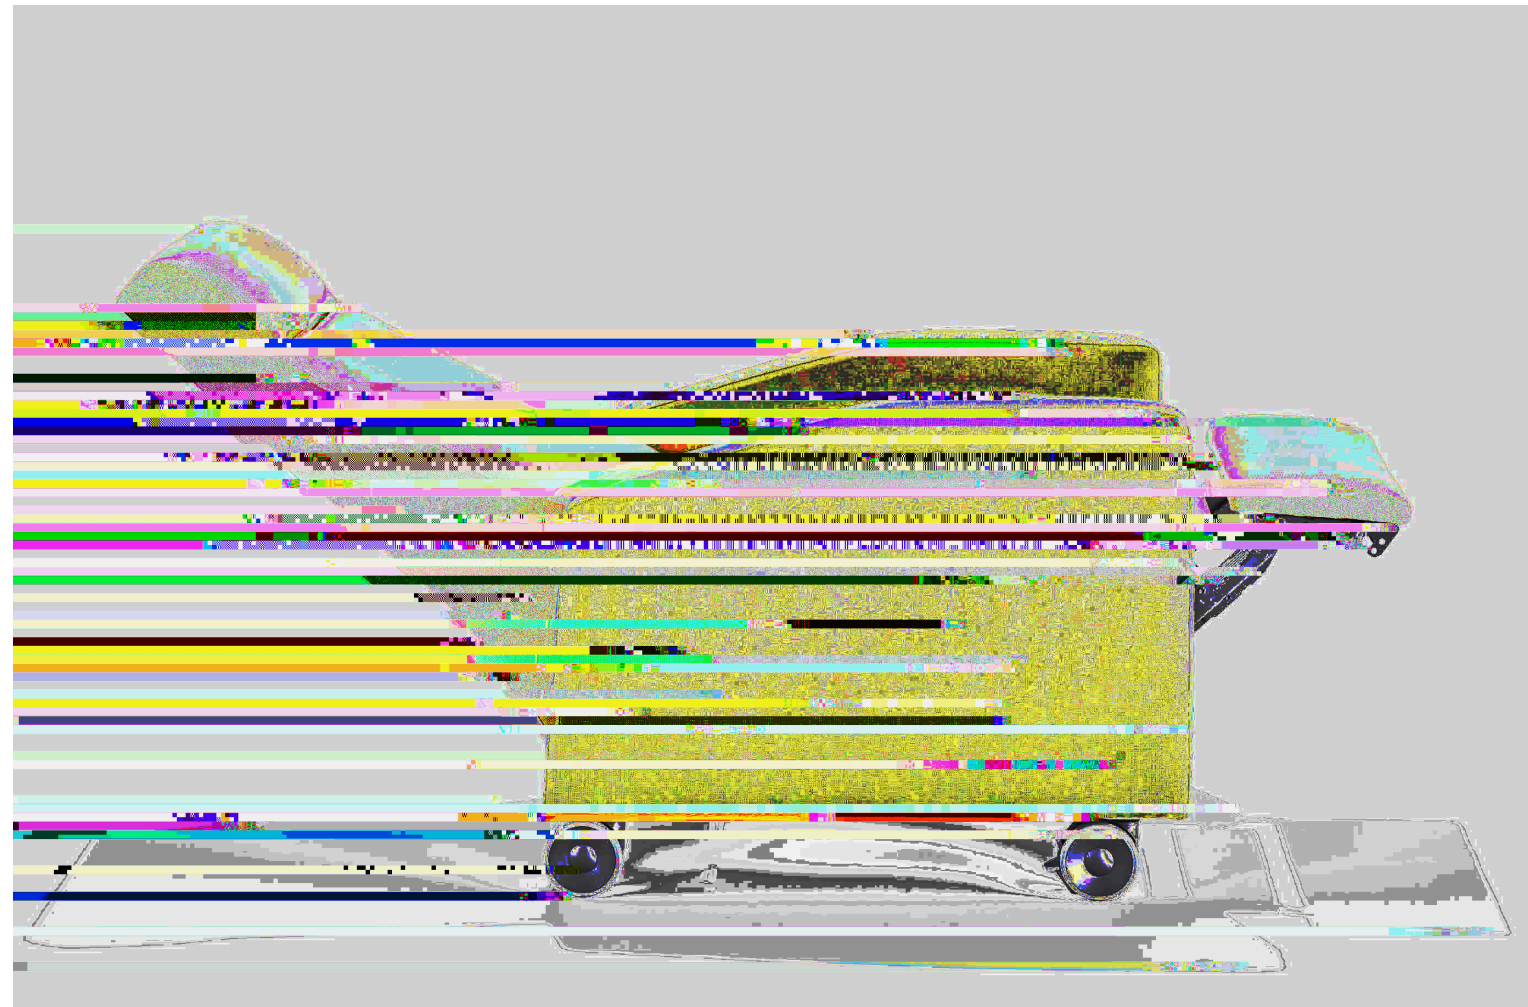

Anti-bacterial, high resilient and fire retardant foam

Anti-fatigue, pressure relieving foam

Heavy duty, twin wheel non marking castors with independent locking and kick release lock

An easy to clean, full metal chassis with no exposed timber

Lift up seat for easy cleaning aesthetic

HD Recliner

The HD Recliner supports the crucial role family and friends play, assisting in the patient recovery process. A full range of reclining increments through the use of inductive touch buttons, allows each user maximum comfort and the lift up mechanism helps patients exit the recliner effortlessly, aiding a smooth transition from sit to stand.

Features:

Anti-bacterial, high resilient and fire retardant foam

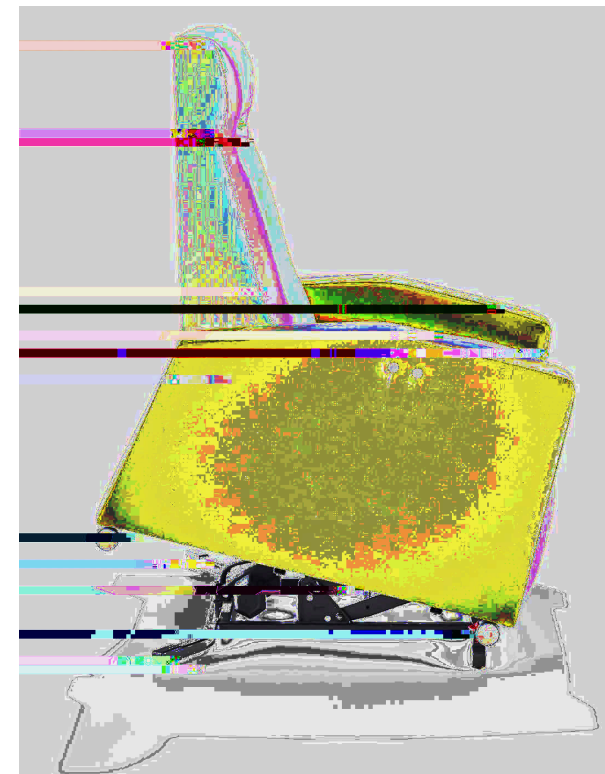

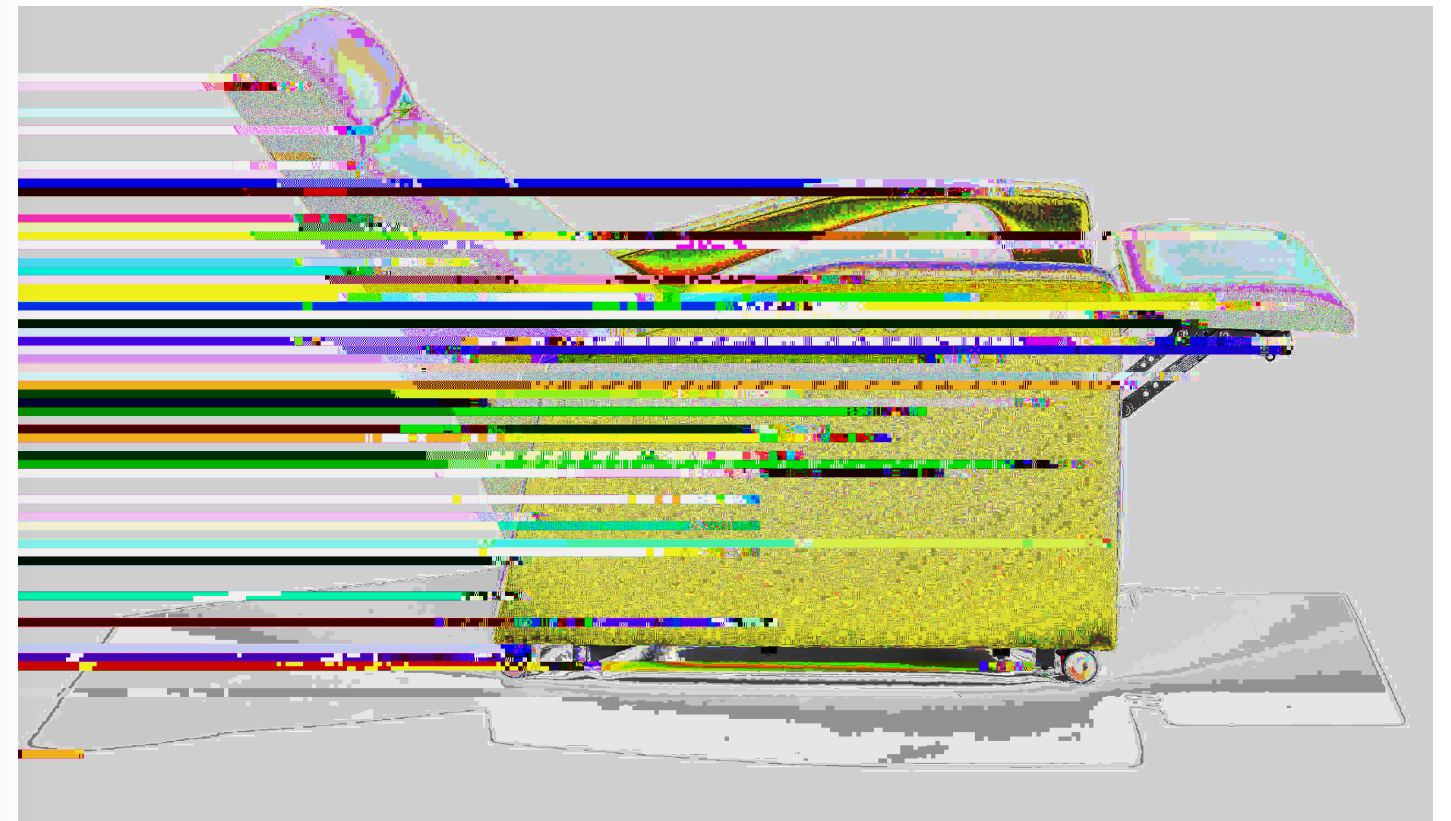

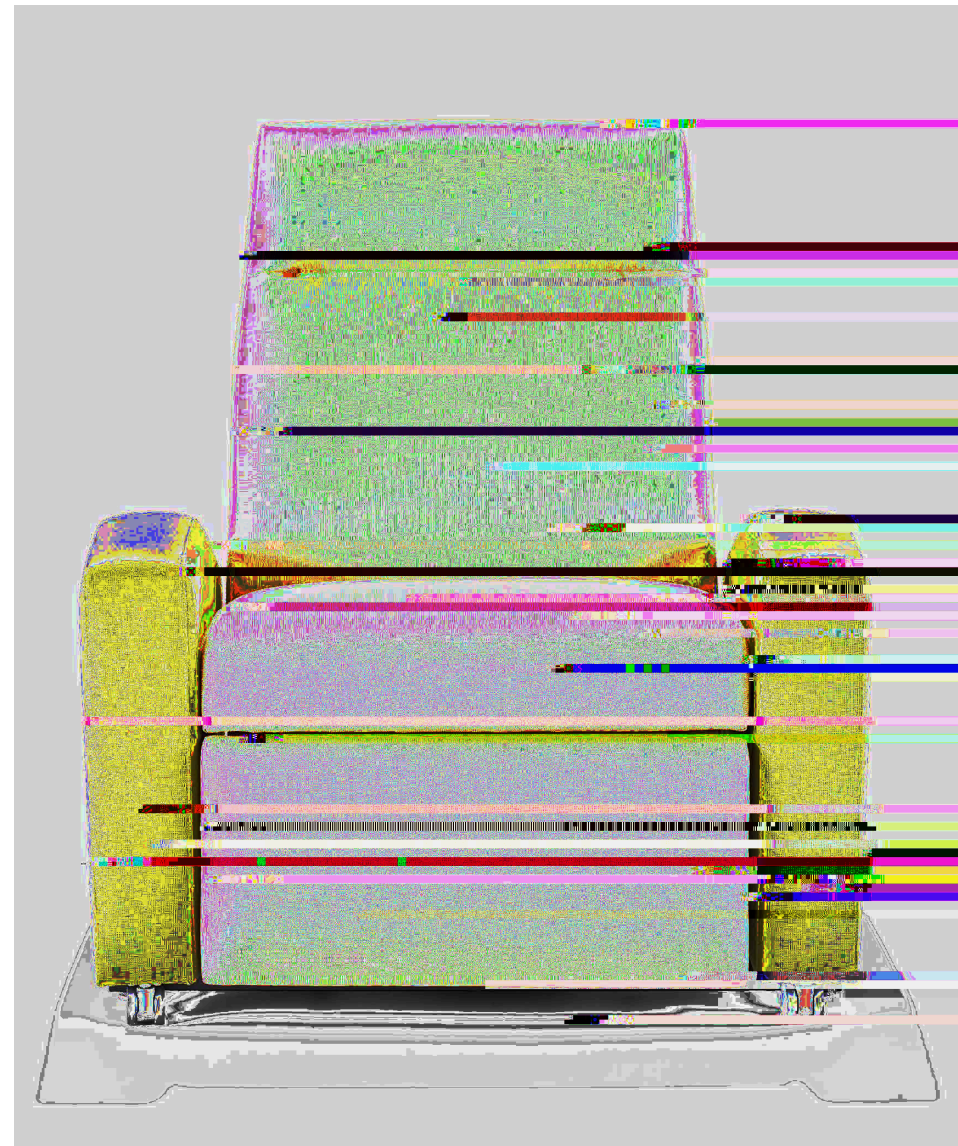

Anti-fatigue, pressure relieving foam

Lockable castors for the front wheels

An easy to clean, full metal chassis with no exposed timber

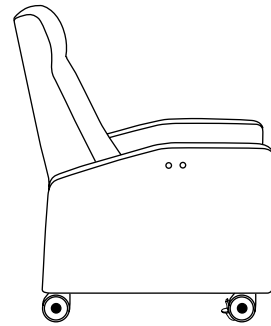

Spring loaded kick board to avoid pinch points

Castors for ease of maneuverability
